

3	2	1	5	4	3						2				1			5					4	
4	3	5	2	1		3					2				1			5			4			
2	4	3	1	5	=		3			3	+	2			+		1			+		5	+	4
5	1	2	4	3						3			2			1				5				4
1	5	4	3	2						3					2	1				5				4

3	1	5	4	2	3						1				4			5					2	
2	3	4	1	5		3					1			4					5		2			
1	2	3	5	4	=		3			3	+	1			+			4		+		5	+	2
5	4	1	2	3						3			1			4				5				2
4	5	2	3	1						3					1	4				5				2

These two squares demonstrate that an identical pattern composition does not always lead to structurally identical squares: A very rare case that a mix of patterns can be assembled in two different ways. *The two squares are structurally different.*
